

Baby Mittens in UAE | Tickle Tickle

Babies are naturally curious and love to explore the world from the moment they arrive. Their hands are among the first tools they use to feel, touch, and experience everything around them. However, as adorable as those tiny fingers are, newborns can unintentionally scratch their delicate skin, especially their face, due to uncontrollable hand movements in the early weeks of life. That's where baby mittens come in as an essential part of a newborn's wardrobe. In the UAE, where parents value both style and safety, Tickle Tickle offers the perfect solution with its collection of organic baby mittens.

At Tickle Tickle, we believe in protecting your little one without compromising on comfort, quality, or sustainability. Our baby mittens are thoughtfully designed to safeguard those tiny hands while supporting the brand's core values—gentle care, eco-consciousness, and timeless style.

Why Baby Mittens Are a Newborn Essential in the UAE

While some may think of baby mittens as optional, they serve several important functions during the early months of a baby's life. First and foremost, they help prevent accidental scratches caused by a newborn's undeveloped motor control. A baby's nails can be surprisingly sharp and grow quickly, which means they can easily nick their cheeks, eyes, or other parts of the body while sleeping or moving.

Second, baby mittens help keep little hands warm. While the UAE is known for its hot climate, air-conditioned homes and hospitals often create cooler environments that can be chilly for newborns. Mittens help regulate body temperature by keeping extremities covered, especially during the first few weeks when babies are still adjusting to life outside the womb.

Lastly, baby mittens can provide a sense of comfort and security. Soft, well-fitting mittens can help babies feel snug and settled, reducing unnecessary stimulation from random hand movements and supporting more restful sleep. Tickle Tickle baby mittens are designed to serve all these purposes—safely and sustainably.

Tickle Tickle Baby Mittens: Where Safety Meets Sustainability

Our baby mittens are made with the highest quality organic materials to ensure that nothing but the purest fabric touches your baby's skin. We use GOTS-certified organic cotton that is free from harsh chemicals, synthetic fibers, and

harmful dyes. This means our mittens are incredibly soft, hypoallergenic, and ideal for babies with sensitive or eczema-prone skin.

What sets Tickle Tickle apart is our commitment to creating baby products that are not only safe and functional but also gentle on the planet. Our baby mittens are crafted with the same love and ethical standards that define all of our collections. When you choose Tickle Tickle, you're choosing sustainable fashion that nurtures both your child and the environment.

Our mittens come in a variety of soft, gender-neutral colors and prints that coordinate beautifully with our bodysuits, sleepsuits, and accessories. They're a simple yet essential addition to any newborn layette, offering both protection and style in one thoughtful design.

Features That Make Tickle Tickle Baby Mittens the Best in the UAE

We know that as a parent, you're looking for babywear that's not only adorable but also functional and durable. That's why Tickle Tickle mittens are carefully designed with features that meet real-life parenting needs in the UAE and beyond.

1. Organic and Hypoallergenic Fabric

Our mittens are made from 100% GOTS-certified organic cotton, offering a naturally soft and breathable layer for your baby's skin. This ensures your little one is protected from synthetic materials and irritating fibers often found in conventional babywear.

2. Gentle Elastic Cuffs

The cuffs of our mittens are designed with gentle, stretchable elastic to ensure a snug but comfortable fit. They stay on securely without being too tight, giving you peace of mind that your baby's hands are covered throughout the night or during outings.

3. Perfect for Air-Conditioned Environments

In the UAE, most homes, hospitals, and indoor spaces are air-conditioned year-round. Our mittens help keep your baby's hands warm and comfortable in cooler indoor settings, preventing chills without causing overheating.

4. Stylish and Unisex Designs

Tickle Tickle's baby mittens are beautifully designed to be gender-neutral and timeless. From earthy tones to soft pastels, every pair of mittens pairs effortlessly with our organic clothing range, allowing for easy mix-and-match outfit planning.

5. Ethically Produced and Eco-Friendly

Our entire production process is built on sustainability. From fair trade sourcing of cotton to low-impact dyes and plastic-free packaging, every product reflects our mission to offer eco-friendly alternatives for modern families.

When and How to Use Baby Mittens

Baby mittens are most commonly used from birth to around three months of age, depending on your baby's development and needs. During this early phase, babies are unable to control their hand movements and may frequently scratch themselves while stretching or moving.

It's ideal to use mittens:

Right after birth, especially in hospitals or cooler nurseries

During nap time and nighttime, to prevent facial scratches

During walks or outings in air-conditioned malls or cool environments

When your baby is swaddled, and you want to keep your hands covered

Make sure to regularly check your baby's hands for signs of irritation or overheating, and remove the mittens during supervised play or tummy time to encourage sensory development.

How to Choose the Right Mittens for Your Baby

When shopping for baby mittens in the UAE, it's important to focus on the quality of materials and the practicality of the design. Look for:

Organic, chemical-free fabrics

Breathable and moisture-wicking material

Comfortable and secure cuffs that don't leave marks

Coordinated options to match your baby's outfits

Tickle Tickle mittens check all these boxes and more. They're the perfect combination of practicality, safety, and style—all wrapped in an eco-friendly package.

Why UAE Parents Trust Tickle Tickle Baby Mittens

Tickle Tickle has quickly become a favorite among conscious parents in the UAE for one reason—we care deeply about what we create and who we create it for. Our brand was born out of a desire to offer modern, sustainable babywear options that prioritize a baby's comfort, a parent's convenience, and the planet's well-being.

We're a local UAE brand that understands the unique climate, culture, and preferences of families living here. Our customer service is responsive, our delivery is fast across the Emirates, and our products are designed to meet the highest international standards.

Parents choose Tickle Tickle because we offer:

High-quality, organic baby products that last
